Eastern Europe! 2nd Edition

2022-03

the long awaited new edition of the acclaimed first ever comprehensive informative and entertaining history of eastern europe in
english thoroughly updated with a major new section on the postcommunist era and a foreword by bbc central europe
correspondent nick thorpe when the legendary romulus killed his brother remus and founded the city of rome in 753 bce plovdiv
today the second largest city in bulgaria was thousands of years old indeed london paris berlin vienna madrid brussels
amsterdam are all mere infants compared to plovdiv this is just one of the paradoxes that haunts and defines the new europe
that part of europe that was freed from soviet bondage in 1989 and which is at once both much older than the modern atlantic
facing power centers of western europe while also being much younger than them eastern europe is a brief and concise but
informative introduction to eastern europe and its myriad customs and history even those knowledgeable about western europe
often see eastern europe as terra incognita with a sign on the border declaring here be monsters torek jankowski s book is a
gateway to understanding both what unites and separates eastern europeans from their western brethren and how this vital
region has been shaped by but has also left its mark on western europe central asia the middle east and north africa it is a
reader friendly guide to a region that is all too often mischaracterized as remote insular and superstitious the book comprises
three parts the first sums up modern linguistic geographic and religious contours of eastern europe while the second main part
dives into the region s history from the earliest origins of europe up to the end of the cold war as well as new to the 2nd edition
a section on the post cold war period closing the book is a section that makes sense of geographical name references many

humans are not living within our ecological means we are using the earth's resources at a pace that cannot be maintained we
have already seen evidence of the fallout associated with ecological overconsumption and continued abuse of environmental
systems will create increasing challenges both today and into the future our depletion of natural systems minimizes the
possibilities available to future generations who are expected to somehow rely on innovation and ingenuity for their survival yet
despite the challenges we face governments individuals non-profits educational institutions and corporations are all heralding the
promise of sustainable development to save our environmental systems from collapse while allowing for uninterrupted economic
