colonoscopy tips and tricks is a practical guide to the fundamentals of this very common medical procedure. Specialists will also find it a useful refresher tool, and trainees in gastroenterology and practicing endoscopist doctors will find it an indispensable resource. Simply split into four sections: pre-procedure, basic procedure, operative procedures, and post-procedure, the reader will be taken through the basics of performing colonoscopy in a step-by-step fashion, with full attention given to setting up the colonoscopy, setting and preparing the patient, as well as the fundamentals behind the different procedures themselves. Authored by one of the world's leading experts in colonoscopy, Jerry Wayne, along with an up-and-coming fellow at Mount Sinai, complete with a companion website featuring approximately 40 video clips of colonoscopy procedures being performed by leading experts.
