in contemplating some common object of the modern street such as an omnibus or a lamp post it is sometimes well worth while to stop and think about why such common objects are regarded as commonplace it is well worth while to try to grasp what is the significance of them or rather the quality in modernity which makes them so often seem not so much significant as insignificant if you stop the omnibus while you stop to think about it you will be unpopular even if you try to grasp the lamp post in your effort to grasp its significance you will almost certainly be misunderstood nevertheless the problem is a real one and not without bearing upon the most poignant politics and ethics of to day it is certainly not the things themselves the idea and upshot of them that are remote from poetry or even mysticism the idea of a crowd of human stranger turned into comrades for a journey is full of the oldest pathos and piety of human life that profound feeling of mortal fraternity and frailty which tells us we are indeed all in the same boat is not the less true if expressed in the formula that we are all in the same bus as for the idea of the lamp post the idea of the fixed beacon of the branching thoroughfares the terrestrial star of the terrestrial traveller it not only could be but actually is the subject of countless songs nor is it even true that there is something so trivial or ugly about the names of the things as to make them commonplace in all connexions the word lamp is especially beloved by the more decorative and poetic writers it is a symbol and very frequently a title it is true that if ruskin had called his eloquent work the seven lamp posts of architecture the

effect to a delicate ear would not have been quite the same but even the word post is in no sense impossible in poetry it can be found with a fine military ring in phrases like the last post or dying at his post I remember indeed hearing when a small child the line in Macaulay's Armada about with loose rein and bloody spur rode inland many a post and being puzzled at the picture of a pillar box or a lamp post displaying so much activity but certainly it is not the mere sound of the word that makes it unworkable in the literature of wonder or beauty omnibus may seem at first sight a more difficult thing to swallow if it may be allowed a somewhat gigantesque figure of speech this it may be said is a cockney and ungainly modern word as it is certainly a cockney and ungainly modern thing but even this is not true the word omnibus is a very noble word with a very noble meaning and even tradition it is derived from an ancient and adamant tongue which has rolled it with very authoritative thunders quod ubique quod semper quod ab omnibus it is a word really more human and universal than republic or democracy a man might very consistently build a temple for all the tribes of men a temple of the largest pattern and the loveliest design and then call it an omnibus it is true that the dignity of this description has really been somewhat diminished by the illogical habit of clipping the word down to the last and least important part of it but that is only one of many modern examples in which real vulgarity is not in democracy but rather in the loss of democracy it is about as democratic to call an omnibus a bus as it would be to call a democrat a rat
