Lean Analytics 2023-10-03 an expert on computer privacy and security shows how we can build privacy into the design of systems from the start we are tethered to our devices all day every day leaving data trails of our searches posts clicks and communications meanwhile governments and businesses collect our data and use it to monitor us without our knowledge so we have resigned ourselves to the belief that privacy is hard choosing to believe that websites do not share our information for example and declaring that we have nothing to hide anyway in this informative and illuminating book a computer privacy and security expert argues that privacy is not that hard if we build it into the design of systems from the start along the way jaap henk hoepman debunks eight persistent myths surrounding computer privacy the website that claims it doesn t collect personal data for example hoepman explains that most data is personal capturing location preferences and other information you don t have anything to hide there s nothing wrong with wanting to keep personal information even if it s not incriminating or embarrassing private hoepman shows that just as technology can be used to invade our privacy it can be used to protect it when we apply privacy by design hoepman suggests technical fixes discussing pseudonyms leaky design encryption metadata and the benefits of keeping your data local on your own device only and outlines privacy design strategies that system designers can apply now

Privacy Is Hard and Seven Other Myths 2020-05-07 in nearly every realm of daily life there is an invisible velvet rope that divides how we live on one side appointments are secured queues are skipped and doors are opened on the other people fight for an empty seat on the plane a place in line at a theme park or even a medical exam schwartz shows how business innovators have stepped in to exploit the gap between the rich and everyone else shifting services away from the masses and finding new ways to profit by serving the privileged the frictionless world of vip experiences seems like good business but as this model expands the costs are mounting schwartz s gripping account takes us on a glittering behind the scenes tour of this new reality and shows the toll the velvet rope divide is taking on society

The Velvet Rope Economy 1987-09-10 shares the memories of a parisian woman about turn of the century
