of all cancer incidents are preventable fight and prevent cancer naturally by using turmeric ginger garlic and other cancer fighting foods 30 recipes included that make every meal a cancer fighting meal cancer is one of the most fearsome diseases to strike mankind there has been much research into both conventional and alternative therapies for different kinds of cancers different cancers require different treatment options and offer different prognosis while there has been significant progress in recent times in cancer research towards a cure there are none available currently however more than half of all cancers are likely preventable through modifications in lifestyle and diet preventing cancer offers a quick insight into cancer causing factors foods that fight cancer and how the three spices turmeric ginger and garlic can not only spice up your food but potentially make all your food into cancer fighting meals while there are many other herbs and spices that help fight cancer these three spices work together and complementarily in addition the medicinal value of these spices has been proven over thousands of years use the book includes cancer causing factors and how to avoid them top 12 cancer fighting foods the cancers they fight and how to incorporate them into your diet cancer fighting benefits of turmeric ginger and garlic many other benefits and uses of turmeric ginger and garlic over 30 recipes including teas smoothies and other dishes that incorporate these spices references and links to many research studies on the effectiveness of these spices the book describes cancer fighting benefits of the following food groups cruciferous vegetables broccoli cauliflower cabbage berries blueberry blackberry strawberry acai berry goji berry cherry nuts and seeds walnuts pecans almonds brazil nuts peanuts cashews flax seeds chia seeds hemp seeds sunflower seeds pumpkin seeds leafy greens kale spinach chard collard greens tea green tea black tea essiac tea dandelion tea unrefined oils extra virgin olive oil coconut oil mushrooms reishi mushrooms maitake mushrooms chaga mushroom turkey tail mushroom shitake mushrooms chinese caterpillar fungus agaricus blazei mushrooms colorful fruits and veggies foods that are red yellow purple green orange legumes and lentils black beans lentils with different colors garbanzo beans pinto beans fermented foods yogurt kefir kimchi miso kombucha pickles tempeh sauerkraut healthy protein salmon grass fed beef chicken spices and herbs turmeric ginger garlic cinnamon chili powder cumin coriander powder black pepper powder cilantro thyme rosemary basil mint the book also contains recipes using these cancer fighting ingredients some of the recipes included are grilled chicken beef chicken pepper fry cauliflower and potato masala chai various smoothies coconut curry chicken and many more preventing cancer is a quick read and offers a lot of concise information on natural cancer prevention a great tool to have in your fight to prevent cancer get your copy today

The Goodness of Ginger & Turmeric 2018-06-25 nothing evokes memories more than food whether it be a smell that transports you to your childhood and images of your mother in the kitchen or a taste that takes you back to a time that makes you smile food has that power many traditions of food centre around a legacy and this cookbook initially started out as me handing over my recipes to the next generation of cooks in my house in the same way that they had been handed over to me by the generation before me my recipes have either been given to me by family members my mother grandmother and mother in law or acquired from family recipes of friends every recipe has a story and more importantly the recipes have played an important role in creating memories the book went from a series of handwritten recipes in an exercise book to something more formalised when it dawned on me that most indian cookery books are written by celebrity chefs usually following on from a televised trip to india however there are no cookbooks that really encapsulate genuine indian home cooking my recipes are designed to cater for the needs of every day cooking at home with simple nutritious dishes to allowing you to create more elaborate spreads for a dinner party i have tried to give a snapshot of the vast variety of cuisines that can be found across india but simplified so that the recipes can be easily followed cooking authentic indian food at home has become much easier today with all ingredients available in supermarkets once you realise how easy it is to grind your own spices and create your own cooking pastes and sauces you will regret ever having reached for a jar of cooking sauce however the real essence of this book is about creating a communal eating experience with family and friends and hopefully to share the memories that i have from 50 years of home cooking and for you to create your own memories enjoy renu

The Roasting Tin 2017-04-06 the study investigated comparatively the effects of plant extracts such as garlic ginger and onion on some organs liver kidney and heart x ray exposed rats using and assaying for some biochemical enzymes twenty albino rats with average weight of 155 00 2 01g divided into five groups were used for the study the rats with exception of the control the were exposed to x ray with ionizing radiation at a rate of 525kv sec the amazing health benefits some toxicity conferred on the rats were reversed when fed diet containing garlic ginger and natural remedies of turmeric onion evidently shown in some of the biochemical parameters examined that includes body weight garlic and ginger powerful natural healers all your questions answered 5
