this book provides helpful guidance for new  
instructors developing and teaching their  
first college courses in the book the author  
proposes that teaching should not be like a  
baseball game in which the instructor pitches  
ideas to students to see whether they hit or  
strike out ideally he says teaching should  
resemble a game of frisbee in which the  
teacher invites students to catch ideas and  
pass them on rather than prescribe a single  
model for success he examines the advantages  
and disadvantages of various pedagogical  
strategies inviting new teachers to make  
choices based on their own personalities  
values and goals in the book he also tackles  
everything from syllabus writing and lecture  
planning to class discussions grading and  
teacher student interactions outside the  
classroom
