this practical manual been written for the car owner who is already a competent driver under normal road conditions but who would like to be a better than average driver and especially for the man who wishes to try his hand at competition work both racing and rallying paul frère grand prix driver and engineer le mans winner and author gives invaluable instruction based on his many years of experience on the racing circuits of europe and america he deals briefly with theoretical matters and then proceeds with his driving lessons making the most of practice learning a circuit racing starts cut off and braking points slides and drifts taking advantage of road camber passing and being passed slipstreaming driving under wet and icy conditions and racing at night he also gives practical advice on race tactics flag marshals time keeping pit signals race wear seat belts the choice of gear ratios and tyres and the different problems posed by road and track racing with the aid of 60 photographs and diagrams m frère explains the correct line to take on various types of corners and why the effects of peculiarities of surface and analyses the forces acting on a car in cornering the book is required reading for every ambitious driver in club and formula junior racing and for rallymen

Porsche 1984-01-01

mechanically timed ignition is easy to understand and wonderfully straightforward to diagnose and repair which is good because it's one of the most likely things on an older car to die and leave you in the lurch. Rob Siegel, better known as the Hack Mechanic, explains how mechanical ignition works and discusses in detail how to set timing and advance. There is also a full chapter on troubleshooting mechanical ignition problems, illustrated with over 100 photos and diagrams and supported by clear step-by-step instructions. The Mechanical Ignition Handbook features sections on mechanical ignition basics and components, common repairs and recommended tools, adjusting point gap, setting dwell angle, locating the timing mark, finding top dead center, setting static and dynamic ignition timing using both a standard and an advance timing light, testing coil resistance, retrofitting breakerless electronic ignition. For those who say enough, applies to vintage cars from the 1950s up through the mid 1980s that have either points and breakers or mechanical ignition advance. Including Porsche 356, mechanically timed Porsche 911, BMW 1600, BMW 2002, Ferrari 365, MG B, Austin Healey Sprite, Jaguar E-Type, Triumph Spitfire, Triumph TR3, Mercedes models including the Mercedes 190 SL, Volkswagen Beetle, early Volvo, Pontiac GTO, vintage Chevrolet Camaro and other American muscle cars.
