the book is a bilingual french and english edition of the mathematical correspondence between a
 grothendieck and j p serre the original french text of 84 letters is supplemented here by the english
 translation with french text printed on the left hand pages and the corresponding english text printed on
 the right hand pages the book also includes several facsimiles of original letters the letters presented in
 the book were mainly written between 1955 and 1965 during this period algebraic geometry went
 through a remarkable transformation and grothendieck and serre were among central figures in this
 process the reader can follow the creation of some of the most important notions of modern mathematics
 like sheaf cohomology schemes riemann roch type theorems algebraic fundamental group motives the
 letters also reflect the mathematical and political atmosphere of this period bourbaki paris harvard

princeton war in algeria etc also included are a few letters written between 1984 and 1987 the letters are supplemented by j p serre s notes which give explanations corrections and references further results the book should be useful to specialists in algebraic geometry in history of mathematics and to all mathematicians who want to understand how great mathematics is created
