Tatra - The Legacy of Hans Ledwinka 2020-01-28 tatra the legacy of hans ledwinka is the story of the tatra company which originated in the central european country of czechoslovakia it is a tale of great innovation and avant garde design in automobile engineering it is also the story of one man hans ledwinka and his visionary concepts which have become highly influential although often undervalued contributions to the development of car technology until now hans ledwinka s talent has hardly been recognised in retrospect he can be judged equal to car designers such as benz daimler and porsche whose endeavours have been fully recorded

many times over with his revolutionary tatra cars ledwinka consistently pushed back the frontiers of automobile construction and it's certain that without his inspiration the volkswagen in its air cooled rear engined form would perhaps never have been conceived this book suggests that ledwinka played a greater part in this development than has previously been appreciated the authors have covered the full history of the tatra company which is one of the oldest factories in continuous automobile manufacture dating back to the 19th century by doing this they have placed both ledwinka and the czechoslovak tatra company in their rightful place in the history of car design and provided a fully comprehensive assessment of the influence of tatra car designs and their inspired creator the text of this larger format 2nd edition has been fully revised and updated since the 1990 edition this new edition also contains many additional illustrations the book also has a new foreword written by norman foster the british architect and proud owner of a tatra t87 who pays tribute to the aesthetic qualities of this design classic and captures the fascination of both designers and motor historians with the development of tatra

Warm Beer, Lousy Food 2009-12 the line began forming after eight o'clock sal short and heavy set kept everyone busy neat in a white shirt and sports jacket with his grey fedora cocked to the side his crooked grin made you smile without warning the heavy door would swing open and the waiters would come outside to join him they were dressed in pajamas or prison garb with hats and horns and were there to warm up the crowd some in line expected this others were shocked the pink polka dot building should have been a warning complete strangers in line became chummy exchanging stories they had heard toilet seat covers to serve drinks on microphones in the ladies room toilet paper for napkins most had brought their friends there to be roasted the line of people varied in age they all dressed casually because they'd heard you could get a pie in the face or a squirt in the eye the club's routines were blue in color but harmless if you were lucky you might see a balls for the queen or a singing beer the price was always right for a good time and warm beer and lousy food was the place to be
