Private International Law Aspects of Corporate Social Responsibility 2020-03-06 the provision of islamic kafala has no legal correspondence with secularised political systems and structures and as a result requires a proper understanding of the legislative measures that are indispensable for the protection of the weakest groups of society at least when the latter turn out to be mostly vulnerable or abandoned most recent international conventions have placed much emphasis on the priority to be given to child protection rather than other personal interests while no syntagmatic principle exists for a theoretical definition and boundary of religious freedoms and legal rules affecting islamic kafala it has become a prevailing interpretative canon which requires the scholar to aim for a proper understanding of the cultural identities and measures to safeguard individuals concerned this book is a thought provoking study of these important issues and will serve to strengthen further research into this topic area for the benefit of both academic and professional readers

The Dutch Collective Settlements Act and Private International Law 2011 the development of the judicial control of the european communities is perhaps best illustrated by comparing the first decision the court of justice rendered in december 1954 under the ecsc treaty with its preliminary rulings van gend loos 1962 enel 1964 and simmenthal ii 1978 rendered under the eec treaty in the first case the court quashed a decision of the high authority impugned by an annulment action of a member state for an illegal exercise of community powers a judicial control which at the time already represented a spectacular legal innovation introduced by the ecsc treaty at that time the court was for evident reasons still reserved as to its role within the unprecedented institutional structure of the community in van gend enel and simmenthal ii on the other hand the court resolutely pursued a judicial policy intended to ensure an effective operation of the community legal order a problem hardly envisaged in 1954 in these rulings the court characterized the emerging legal order and stated its fundamental and indispensable requirements the unlimited supremacy of community law and its direct effect the development of a superior and autonomous community legal order was finally completed by the court s recognition of fundamental community rights of individuals this development from an initially reserved stand of the court searching for its proper role and its potentialities to a bold and determined judicial policy is truly remarkable
