Samson Daft Donnet's Fundamentals of Management is a robust foundation text providing a balance of broad theoretical content with accessible language for students. This sixth edition features a new author on the team and contains updates to content based on recent research along with current management theory and practice. The text integrates coverage of innovation, entrepreneurship, agile workplaces, social media, and new technology throughout the book. It is rich with experiential exercises, self-assessment activities, challenges, and cases for students to engage with, developing multiple skills. Examples within the text are both local and global, with a new focus on a skills approach. Each part of the text concludes with a contemporary continuing case study focusing on car company Toyota as it faces managerial challenges and opportunities in the region. The text covers the four key management functions: planning, organizing, leading, and controlling, conveying to students the elements of a manager's working day.
