Golf Equipment World Summary

1980-12

designing future oriented airline businesses is the eighth ashgate book by nawal k taneja to address the ongoing challenges and opportunities facing all generations of airlines firstly it challenges and encourages airline managements to take a deeper dive into new ways of doing business secondly it provides a framework for identifying and developing strategies and capabilities as well as executing them efficiently and effectively to change the focus from cost reduction to revenue enhancement and from competitive advantage to comparative advantage based on the author s own extensive experience and ongoing work in the global airline industry as well as through a synthesis of leading business practices both inside and outside of the industry designing future oriented airline businesses sets out to demystify numerous concepts being discussed within the airline industry and to facilitate managements to identify and articulate the boundaries of their business models it provides material from which managements can set about answering the key questions especially with respect to strategies capabilities and execution and pursue an effective redesign of their business as with the author s previous books the primary audience is senior level practitioners of

differing generations of airlines worldwide as well as related businesses the material presented continues to be at a pragmatic level not an academic exercise to lead managements to ask themselves and their teams some critical thought provoking questions
