beginning with the story of the forming of the constitution this book includes illuminating character sketches of the delegates written by their contemporaries the complete text of the constitution is highlighted as well as supreme court decisions cited because they shed light on constitutional problems

AP U.S. Government & Politics Prep Plus 2021 & 2022

2019-08-09

the proportionality test as proposed in robert alexy s principles theory is becoming commonplace in comparative constitutional studies and yet the question are courts justified in borrowing proportionality has not been expressly put in many countries where judicial borrowings are a reality this book sheds light on this question and examines the circumstances under which courts are authorized to borrow from alien legal sources to rule on constitutional cases taking the supreme federal court of brazil and its enthusiastic recourse to proportionality when interpreting the federal constitution as a case study the book investigates the normative reasons that could justify the court s attitude and offers a comprehensive overview of its case law on controversial constitutional matters like abortion same sex union racial quotas and the right to public healthcare providing a valuable resource for those interested in comparative constitutional law and legal theory or curious about brazilian constitutional law this book questions the alleged universality of the proportionality test challenges the premises of alexy s principles theory and discloses more than 68 brazilian supreme court decisions delivered from 2003 to 2018 that would otherwise have remained unknown to an english speaking audience

Georgia's Constitution and Government

1968-08

there is growing interest in constitutional amendment from a comparative perspective comparative constitutional amendment is the study of how constitutions change through formal and informal means including alteration revision evolution interpretation replacement and revolution the field invites scholars to draw insights about constitutional change across borders and cultures to uncover the motivations behind constitutional change to theorise best practices and to identify the theoretical underpinnings of constitutional change this volume is designed to guide the emergence of comparative constitutional amendment as a distinct field of study in public law much of the recent scholarship in the field has been written by the scholars assembled in this volume this book like the field it hopes to shape is not comparative alone it is also doctrinal historical and theoretical and therefore offers a multiplicity of perspectives on a subject about which much remains to be written this book aspires to be the first to address comprehensively the new dimensions of the study of constitutional amendment and will become a reference point for all scholars working on the subject the volume covers all of the topics where innovative work is being done such as the notion of the people the trend of empirical quantitative approaches to constitutional change unamendability sunrise clauses constitutional referenda the conventional divide between constituent and constituted powers among other important subjects it creates a dialogue that cuts through these innovative conceptualisations and highlights scholarly disagreement and in so doing puts ideas to the test the volume therefore captures the fierce ongoing debates on the relevant topics it reveals the current trends and contested issues and it offers a variety of arguments elaborated by prominent experts in the field it will open the way for further dialogue

The Living U. S. Constitution

2018-11-11

law making is a primary function of government and how well the three devolved uk legislatures exercise this function will be a crucial test of the whole devolution project this book provides the first systematic study and authoritative data to start that assessment it represents the fruits of a four year collaboration between top constitutional lawyers from scotland wales and northern ireland and leading researchers in ucl s constitution unit the book opens with detailed studies of law making in the period 1999 2004 in the scottish parliament and the assemblies in wales and northern ireland and how they interact with westminster later contributions look at aspects of legislative partnership in the light of the uk s strongly asymmetric devolutionary development and also explain the unexpected impact of devolution on the courts individual chapters focus on various constitutional aspects of law making examining the interplay of continuity and change in political legal and administrative practice and the competing pressures for convergence and divergence between the different parliaments and assemblies this book is essential reading for academics and students in law and in politics and for anyone interested in the constitutional and legal aspects of uk devolution not least the practitioners and policymakers in london edinburgh cardiff and belfast
