in the icon and the square maria taroutina examines how the traditional interests of institutions such as the crown the church and the imperial academy of arts temporarily aligned with the radical leftist and revolutionary avant garde at the turn of the twentieth century through a shared interest in the byzantine past offering a counternarrative to prevailing notions of russian modernism focusing on the works of four different artists mikhail vrubel vasily kandinsky kazimir malevich and vladimir tatlin taroutina shows how engagement with medieval pictorial traditions drove each artist to transform his own practice pushing beyond the established boundaries of his respective artistic and intellectual milieu she also contextualizes and complements her study of the work of these artists with an examination of the activities of a number of important cultural associations and institutions over the course of several decades as a result the icon and the square gives a more complete picture of russian modernism one that attends to the dialogue between generations of artists curators collectors critics and theorists the icon and the square retrieves a neglected but vital history that was deliberately suppressed by the atheist soviet regime and subsequently ignored in favor of the secular formalism of mainstream modernist criticism taroutina s timely study which coincides with the centennial reassessments of russian and soviet modernism is sure to invigorate conversation among scholars of art history modernism and russian culture

wong sir s trip netherlands van gogh museum the van gogh museum is located in the museum square in the south of amsterdam the netherlands when completed in 1973 the museum

was opened by queen juliana of the kingdom of the netherlands in 1999 a new wing designed by japanese architect kisho kurokawa was added with an irregular oval shape in 2015 a glass curtain was added to two buildings which is the entrance to the museum the van gogh museum receives 1 5 million visitors each year in the eyes of european tourists the van gogh museum ranks first among the 18 most famous art museums in the world the van gogh museum is small with more than 500 visitors per square meter the louvre is 140 and the tate modern in london is 171 in 2017 the number of visitors reached a record 2 26 million becoming the most visited museum in the netherlands the huge flow of people caused trouble for the van gogh museum the museum has taken a series of measures to reduce the number of tourists mainly by increasing fares between 2017 and 2018 ticket prices increased by 1 to 18 the number of tourists decreased to 2 16 million the number will increase to 19 euros in 2019 the number of tourists will continue to decline van gogh was determined to become an artist when he was 27 years old in just 10 years of creative career he left 860 paintings more than 1 200 drawings sketches in letters watercolors and other works on paper and 820 letters due to the lack of money to invite models van gogh painted a lot of self portraits the most famous of which is self portrait after cutting ear van gogh s work was kept by van gogh s younger brother dio and later sold to the dutch government for millions of dollars the condition is the establishment of the van gogh foundation which is controlled by the van gogh family and a van gogh museum in amsterdam yellow is van gogh s representative color van gogh s self portrait is hung in the center of the entire yellow wall of the museum upon entering rent an audio guide for five euros per person the guide has multiple languages including chinese but the english explanation is more detailed and the introduction information of multiple languages is only simplified version in chinese to protect paintings photography is not allowed in the museum s exhibition area the museum has four floors displaying works from low to high according to van gogh s life visitors walk through van gogh s life vertically from bottom to top on march 30 1853 vincent van gogh was born in zindert a small town in the brabant region of the netherlands at the age of 11 he transferred to a boarding school in zevenbergen at the age of 13 he attended tilburg middle school and dropped out halfway through the second school year at the age of 16 he joined the gubir international art company as an apprentice van gogh was transferred to paris in 1875 and fired in 1876 after leaving gubir van gogh returned to the uk to work as a voluntary teaching assistant at a boarding school in ramsgate at the end of 1876 van gogh returned to brabant the netherlands but did not return to britain dutch period 1880 1885 in october 1880 van gogh moved to brussels and began to study painting skills since there was no longer a steady income his younger brother dio helped him from time to time in the spring of 1881 van gogh moved to eton brabant to live with his parents on christmas day in 1881 van gogh left home after a quarrel with his father went to the hague to find a distant cousin the then known painter anton muff learned painting in early 1882 van gogh met sean and became his model and lover sean had fallen into dust was pregnant in rokko and had a five year old daughter the two rented a room and the family was able to live in the two eventually broke up in december 1883 van gogh moved back to nuenen to live with his parents again van gogh s father died at the end of march 1885 potato eater completed between april and may 1885 was van gogh s first large scale figure painting and he was very satisfied at the end of the year van gogh decided to go to the academy of fine arts in antwerp belgium said goodbye to his native netherlands and never returned paris period 1886 1888 at that time the paris art market was popular with japanese ukiyo e prints he had never been to japan s van gogh and loved ukiyo e his style was influenced by ukiyo e one of them was the sower at that time ukiyo e woodcut prints cost only a few cents van gogh bought 660 pieces held an exhibition in an attempt to resell the profits but only sold more than a hundred copies about 500 of which have been circulating to this day arles 1888 1889 on february 20 1888 van gogh took a day and a night train to arles a small town on the long river and began his creative heyday he lived in arles southern france and established the southern studio van gogh invited gauguin his long cherished favorite to live in a yellow house the yellow house

became van gogh s painting the yellow house van gogh used his paintings to decorate the yellow house five versions of sunflower were born inside the house the first sunflower appeared in the house in august 1888 sunflower did not bring van gogh s fame and fortune his letter to his younger brother dio on october 25 1888 was pessimistic if my paintings don t sell i can t do anything about it but that day will come people will realize that these paintings are more valuable than pigments and our spent livelihoods gauguin and van gogh had many creative sparks in tribute to van gogh he drew a painting vinson painting a sunflower van gogh unexpectedly this painting became the fuse of van gogh and gauguin which eventually caused a bloody case because of different painting concepts on december 23 1888 gauguin had a fierce quarrel with van gogh gauguin threatened to leave which led to the recurrence of van gogh s disorder he threatened gauguin with a razor and eventually cut off his left ear wrapped it in a newspaper and gave it to the prostitute in the red light district after van gogh came to the hospital to wrap the wound he painted self portrait after cutting ear the next morning van gogh was admitted to arles hospital after hearing the news dior hurriedly boarded the southbound train dior went to the hospital to visit van gogh accompanied by gauguin van gogh had no memory of the ear cutting incident on december 30 1888 sunday the local newspaper republican forum in arles reported on van gogh s ear cut incident under the title disillusionment of dreams saint remy period 1889 1890 in early january 1889 van gogh was discharged from the hospital and picked up his paintbrush again however his mental illness fluctuated in the following months on may 8th van gogh feared a relapse and voluntarily admitted to st remy s psychiatric hospital on january 31 1890 van gogh s brother dio gave birth to a son van gogh drew apricot blossoms for his brother and newborn baby under the blue sky background the big branches are covered with snow white apricot flowers the blooming flowers on the apricot branches symbolize new life this painting is deeply influenced by japanese art van gogh was ill in a sanitarium and painted in the ward when he was in good shape once he ate some oil paint under extreme disorder and was banned from working for some time van gogh was very productive during saint remy completing about 150 paintings and more than 100 drawings in 108 days van gogh s style of painting began to trend towards expressionism his works were full of melancholy spirit and tragic hallucinations starry night is a representative work of this period the scenery described is exactly st remy where the mental hospital is located in may 1890 iris was conceived in a mental hospital the ink used in this painting was particularly heavy and it took one month to fully dry van gogh left st remy s psychiatric hospital in may during this time he abandoned sleep and forgot to eat basically creating a work every day and his health seemed to improve in july van gogh knew that his brother was frustrated after he quit his business he was worried that he would lose financial support and be depressed on july 10 a letter written by van gogh to dior foretold the suicide ending after figuring out what i want i drew three more works on the cloth all are wheat fields under the rolling sky i try to express feelings of sorrow and extreme loneliness you will soon see that i hope i can take them to paris as soon as possible i am almost certain that these paintings can tell you the feelings that i cannot express in words the health that the village has the inspiring charm the painting that van gogh referred to is crows in the wheat field on july 27 van gogh walked into a wheat field and shot his chest with a revolver then he returned to his lodging hostel dior rushed from paris to orville to accompany his brother two days later van gogh died after being injured on july 30 van gogh was buried in orville he left a huge artistic heritage with over 850 paintings and about 300 works on paper in 2014 commemorating the 125th anniversary of van gogh s death dutch artist rothgard designed van gogh s starry night cycling track based on van gogh s starry night the bicycle track is about one kilometer in length is the world s first luminous bicycle track passing by van gogh s birthplace zindert the bike path is paved with materials that absorb solar energy during the day and glow at night the designer used 50 000 luminous materials to lay out a swirling starry sky like in the starry night paintings reproducing the beautiful scenery of famous paintings van gogh museum address 6 museum square amsterdam the netherlands adult ticket multimedia guide

the structures of practical knowledge investigates the nature of practical knowledge why how when and by whom it is codified and once codified how this knowledge is structured the inquiry unfolds in a series of fifteen case studies which range in focus from early modern italy to eighteenth century china at the heart of each study is a shared definition of practical knowledge that is knowledge needed to obtain a certain outcome whether that be an artistic or mechanical artifact a healing practice or a mathematical result while the content of practical knowledge is widely variable this study shows that all practical knowledge is formally equivalent in following a defined workflow as reflected in a construction procedure a recipe or an algorithm as explored in the volume s fifteen contributions there are three levels at which structures of practical knowledge may be understood and examined at the most immediate level there are the individual workflows that encompasses practical knowledge itself probing further it is possible to examine the structure of practical knowledge as it is externalized and codified in texts drawings and artifacts such as models finally practical knowledge is also related to social structures which fundamentally determine its dissemination and evolution into new knowledge structures the social structures of professionals and institutions represent the critical means by which practical knowledge takes form these actors are the agents of codification and by means of selection appropriation investment and knowledge development they determine the formation of new structures of practical knowledge on a more abstract level the creation of new knowledge structures is understood as constituting the basis for the further development of scientific knowledge rich in subject matter and incisive in the theory it lays out this volume represents an important contribution to the history of science and epistemology individually the fifteen case studies encompassing the history of architecture mining brewing glass production printing ballistics mechanics cartography cosmology and astronomy are replete with original research and offer new insights into the history of science taken together the contributions remodel historical epistemology as a whole elucidating the underlining knowledge structures that transcend disciplinary boundaries and that unite practitioners across time and space

## The Structures of Practical Knowledge

2017-02-20

this book explores the collaborative practices both literary and material that women undertook in the production of early modern texts it confronts two ongoing methodological dilemmas how does conceiving women s texts as collaborations between authors readers annotators editors printers and patrons uphold or disrupt current understandings of authorship and how does reconceiving such texts as collaborative illuminate some of the unresolved discontinuities and competing agendas in early modern women s studies from one perspective viewing early modern women s writing as collaborative seems to threaten the hard won legitimacy of the authors we have already recovered from another developing our understanding of literary agency beyond capital a authorship opens the field to the surprising range of roles that women played in the history of early modern books instead of trying to simply shift disaggregate or adjudicate between competing claims for male or female priority in the production of early modern texts gender authorship and early modern women s collaboration investigates the role that gender has played and might continue to play in understanding early modern collaboration and its consequences for women s literary history

john riddy s photographs are distinguished by a combination of poetic delicacy and formal precision which has been evident since his earliest pictures made in london in the late 1980s working consistently in series riddy has created collective studies of urban architecture and rural landscapes in countries as disparate as japan italy south africa and the united states in

every case exploiting the capacity for still images to render the everyday both factual and transcendent the starting point for much of his work has been the relationship between photography and the history of art and architecture such as john ruskin s autobiography hokusai s woodblock prints and gustave le gray s photographs this book presents all of ridley s major series and like a volume of collected poems each image is distinct and of itself yet linked to its counterparts by technical skill and a finely tuned sensibility the sequence of images builds progressively towards a final series of magisterial works that reveals ridley s subtle use of color light and darkness to express his complex comprehension of the world i know of no recent body of photographic work that exhibits a more deeply considered set of reflections on the nature of the enterprise michael fried exhibition de pont museum tilburg april 2019

## Art for a New Understanding

2018-10-24

china art modernity provides a critical introduction to modern and contemporary chinese art as a whole it illuminates what is distinctive and significant about the rich range of art created during the tumultuous period of chinese history from the end of imperial rule to the present day the story of chinese art in the twentieth and twenty first centuries is shown to be deeply intertwined with that of the country s broader socio political development with art serving both as a tool for the creation of a new national culture and as a means for critiquing the forms

that culture has taken the book's approach is inclusive in addition to treating art within the Chinese mainland itself during the republican and communist eras for instance it also looks at the art of colonial Hong Kong Taiwan and the Chinese diaspora similarly it gives equal prominence to artists employing tools and idioms of indigenous Chinese origin and those who engage with international styles and contemporary media in this way it writes China into the global story of modern art as a whole at a moment in intellectual history when western centred stories of modern and contemporary culture are finally being recognized as parochial and inadequate assuming no previous background knowledge of Chinese history and culture this concise yet comprehensive and richly illustrated book will appeal to those who already have an established interest in modern Chinese art and those for whom this is a novel topic it will be of particular value to students of Chinese art or modern art in general but it is also for those in the wider reading public with a curiosity about modern China at a time when that country has become a major actor on the world stage in all sorts of ways accessible sources of information concerning its modern visual culture are nevertheless surprisingly scarce as a consequence a fully nuanced picture of China's place in the modern world remains elusive China Art Modernity is a timely remedy for that situation here is a book that offers a comprehensive account of the dizzying transformations of Chinese art and society in the twentieth and twenty-first centuries breaking free of conventional dichotomies between traditional and modern Chinese and Western that have hobbled earlier studies Clarke's highly original book is exactly what I would assign my own students anyone eager to understand developments in China within the global history of modern art should read this book Robert E. Harrist Jr. Columbia University Clarke's book presents a critically astute mapping of the arts of modern and contemporary China it highlights the significance of urban and industrial contexts migration diasporas and the margins of the mainland while imaginatively seeking to inscribe its subject into the broader story of modern art a timely and reliable intervention and indispensable for the student and non-specialist reader Shane McCausland Soas University of London

## The Private World of Surimono

2020-04-07

just because the art is beautiful doesn't mean the artist was a saint scoundrels, cads and other great artists examines the lives of nine great artists who were less than exemplary human beings in their lives outside of their art it explores the question why do we like magnificent art from artists who were awful human beings for example the great baroque painter Caravaggio who developed the chiaroscuro style of painting was in constant trouble with the law even having killed a man in a duel Frederick Remington the great painter of the American West was an incredible racist and bigot his evocative paintings of Native Americans on the trail on horseback give no hint of Remington's enmity toward them and other ethnic groups in America Jackson Pollock his irascibility and petulance were compounded by a lifelong battle with alcoholism ultimately leading to a fatal automobile accident Whistler and Courbet were philanderers and libertines scoundrels introduces people to great art by showing the more salacious side of the personal lives of great artists over time this book not only tells the stories of a dozen artists but explores how to look at art and the separation between art and artist this lively narrative is enhanced by over 100 full color reproductions of great paintings and details from them
