The Answers 2011-05-26 why did i choose to name this collection western questions eastern answers philosophy and science in the west have largely been practiced with the aim to understand the present world a number of theories have been propounded none of which are free of problems philosophy and science in the east specifically the vedic tradition has always been practiced with the aim to transcend the world vedic texts provide many theories but always in answer to a transcendental question on one hand therefore we have questions that haven t found good answers on the other there are very good answers that haven t been connected to the burning questions of mankind today combining them makes a lot of sense from both sides although i believe this type of approach to a synthesis of religion and science hasn t been attempted before clearly to repeat the same answer but in response to a different question and the answer to still make a lot of sense we must understand not just the questions and answers but also the other answers that were earlier given for the same question and
