Lies Sleeping 2018-11-15 old st paul s and culture is an interdisciplinary collection of essays that looks predominantly at the culture of old st paul s and its wider precinct in the early modern period while also providing important insights into the cathedral s medieval institution the chapters examine the symbolic role of the site in england s christian history the london book trade based in and around st paul s the place of st paul s commercial indoor playhouse within the performance culture of sixteenth and seventeenth century london and the intersection of religion and

politics through events such as civic ceremonies and occasional sermons through the organising theme of culture the authors demonstrate how the site as well as the people and trades occupying the precinct can be positioned within wider fields of representations practices and social networks a focus on st paul s is therefore about more than just the specific site on ludgate hill it is about those practices and representations connected to it which either extended beyond or originated in places other than the cathedral environs this points to the range of localised regional national and transnational relationships in which the precinct and its people were situated and to which they contributed

**Girl Gone London: An American's Guide to Surviving Life in the UK** 2013-03-01 why at a time when the majority of us no longer believe in ghosts demons or the occult does gothic continue to have such a strong grasp upon literature cinema and popular culture this book answers the question by exploring some of the ways in which we have applied gothic tropes to our everyday fears the book opens with the turn of the screw a text dealing in the dangers adults pose to children whilst simultaneously questioning the assumed innocence of all children staying with the domestic arena it explores the various manifestations undertaken by the haunted house during the twentieth century from the bombed out spaces of the blitz the demon lover and the night watch to the designer bathrooms of wealthy american suburbia what lies beneath the monsters that emerge through the uncanny surfaces of the gothic can also be terror monsters and after a discussion of terrorism and atrocity in relation to burial alive the book examines the relationship between the human and the inhuman through the role of the beast monster as manifestation of the evil that resides in our midst the hound of the baskervilles and the birds it is with the dangers of the body that the gothic has been most closely associated and during the later twentieth century paranoia attaches itself to skeletal forms and ghosts in the wake of the hiv aids crisis sexuality and as disease is one of the themes of patrick mcgrath s work dr haggard s disease and the angel and the issue of skeletons in the closet is also explored through henry james s the jolly corner however sexuality is also one of the most liberating aspects of gothic narratives after a brief discussion of camp humour in british television drama series jekyll the book concludes with a discussion of the apparitional lesbian through the work of sarah waters

*The Rubicon - the Original Classic Edition* 2011-01-15 how statues heritage and the built environment have become the battleground for the culture wars the past is weaponised in culture wars and cynically edited by those who wish to impose their ideology upon the physical spaces around us holocaust deniers use details of the ruins of the gas chambers auschwitz to promote their lies no holes no holocaust yet long standing concepts such as authenticity in heritage are undermined and trivialised by gatekeepers such as unesco at the same time opposition to this manipulation is being undermined by cultural ideas that prioritise memory and impressions over history and facts in monumental lies robert bevan argues that monuments architecture and cities are material evidence of history they are the physical trace of past events of previous ways of thinking and of politics economics and values that percolate through to today when our cities are reshaped as fantasies about the past when monuments tell lies about who deserves honour or are destroyed and the struggle for justice forgotten the historical record is being manipulated when decisions are based on misinformed assumptions about how the built environment influences our behaviour or we are told falsely that certain architectural styles are alien to our cities or when space pretends to be public but is private or that physical separation is natural we are being manipulated there is a growing threat to the material evidence of the truth about history we are in serious trouble if we can no longer trust the tangible world around us to tell us the truth monumental lies explores the threats to our understanding of the built environment and how it impacts on our lives as well as offers solutions to how to combat the ideological manipulations
