this guidance document is part of a series of guidance
documents that are aimed at helping stakeholders
prepare for fulfilling their obligations under the
reach regulation these documents cover detailed
guidance on a range of essential reach processes as
well as for some specific scientific and or technical
methods that industry or authorities need to make use
of under reach the first version of this guidance
document was drafted and discussed within a reach
implementation project rip led by the european
commission services involving all stakeholders member
states industry and non governmental organisations when
needed the european chemicals agency echa updates this
and other guidance documents following the consultation
procedure on guidance these guidance documents can be
obtained via the website of echa the judgement of the
european court of justice of 10 september 2015 in case
c_106/14 clarified the scope of the notification and
communication obligations under articles 7 2 and 23
reach which also apply to articles that regulate
complex products id est products made up of
regulations
legislation series
