social work ethics on the line discusses social work ethics in depth and the process of making ethical judgements in social work practice this much needed book guides social workers through ethical dilemmas and assists them in their exercise of professional discretion without exclusive reliance on the codes of professional ethics to which they are committed the author proposes a method to lead social workers through making ethical decisions which enables them to evaluate decisions in actual practice and in the adjudication of grievances and complaints of unethical conduct this method is fully demonstrated in twenty four vignettes representing situations commonly encountered by social workers in a variety of professional and educational situations raising the ethical consciousness of social work practitioners trainees and students this book helps them develop the awareness and skills necessary for choosing ethical actions in their work social work ethics on the line is an invaluable guide for social work practitioners supervisors administrators and community organization workers it is also helpful for in service training in social agencies and undergraduate and graduate schools of social work

The Book of Tara

1996

metaphor and imaginal psychology a hermetic reflection provides the first full length exploration of the significance of metaphor in post jungian psychology its portrayal of the mythological figure of hermes as a personification of metaphor marks an original contribution to the field of metaphor studies after a 2 500 year exile from philosophy and related areas of study beginning with plato s ejection of the poets from the ideal city state metaphor is today experiencing a season of renewal among the fields where its significance as a way of seeing thinking and feeling has been especially prominent is archetypal psychology perhaps the most philosophically attuned of psychological disciplines approaching the work of james hillman and other key archetypal psychologists from a poststructuralist perspective metaphor and imaginal psychology draws insightful comparisons between archetypal psychology and the deconstructive philosophy of jacques derrida a principle theorist of metaphor s philosophical resurgence by linking two disciplines that might at first appear as strange bedfellows metaphor and imaginal psychology underscores the influence of metaphor in reason and emotion and makes a compelling case for the mercurial ethos of our postmodern world aside from representing essential reading for therapists and theorists working in post jungian studies the book will appeal to readers students and scholars of literary criticism psychology philosophy and mythology

Educational Psychology

1999-06

the book is designed to enable students to become intelligent consumers of educational research in order

to help create effective and accountable learning environments written in a very clear and user friendly style this text focuses on understanding the intent of the researcher the procedures and the results so that students can use appropriate research findings to inform school change this text emphasizes how responses to the accountability movement in schools can be focused around using and understanding scientific inquiry it balances quantitative and qualitative research methodology and discusses action research and mixed methods in detail principles for conducting research and criteria for evaluating its overall credibility are presented in a concise manner students are shown how to analyze and evaluate research and judge the usefulness of the findings for educational practice in addition students are shown how this knowledge can translate to their own classrooms
