Cytopathology Review Guide 1998-01-01 you ve got a great idea that will increase revenue or productivity but how do you get approval to make it happen by building a business case that clearly shows its value maybe you struggle to win support for projects because you re not sure what kind of data your stakeholders will trust or naysayers always seem to shoot your ideas down at the last minute or perhaps you re intimidated by analysis and number crunching so you just take a stab at estimating costs and benefits with little confidence in your accuracy to get any idea off the ground at your company you ll have to make a strong case for it this guide gives you the tools to do that

HBR Guide to Building Your Business Case 2015 exceptionally good a frighteningly plausible nightmare observer thrillers of the month extraordinary a unique blend of thriller post covid dystopia and paean to the healing properties of nature guardian peter heller s thrillers unfurl like campfire yarns new york times an ever so subtly dystopian wilderness noir that speculates on the horrors of a post pandemic society usa today riveting a chilling reminder of the dangers that might lie in wait for us all minneapolis star tribune a modern master of the wilderness thriller crimereads the guide is a glorious getaway in every sense a wild wilderness trip as well as a suspenseful journey to solve a chilling mystery bookpage the poet laureate of the literary thriller sinister and soulful michael koryta author of those who wish me dead the best selling author of the river returns with a heart racing thriller about a young man escaping his own grief and an elite fishing lodge in colorado hiding a plot of shocking menace kingfisher lodge a boutique resort surrounded by a mile and a half of the most pristine river water on the planet safe from viruses that have plagued america for years kingfisher offers a respite for wealthy clients and a return to normality for fishing guide jack battling the demons of a recent devastating loss but when a human scream pierces the night jack soon realises that the idyllic retreat may be merely a cover for a far more sinister

operation lucy foley meets liane moriarty s nine perfect strangers with the lyrical writing of robert macfarlane and an eerily plausible twist praise for peter heller and the river glorious prose and razor sharp tension observer thrillers of the year utter joy a suspenseful tale told with glorious drama and lyrical flair denise mina new york times urgent visceral writing i couldn t turn the pages fast enough clare mackintosh lyrical and action packed by turns guardian a master of suspense a thrilling read with a dramatic twist at the end you will not be able to put it down the lady a must read daily express heller packs a ton of adventure and emotion in this short novel and i dare you to put it down once you ve picked it up criminal element

The Guide 2021-08-24 people love snow they love to ski and sled on it snowshoe through it and watch it fall from the sky they love the way it blankets a landscape making it look tranquil and beautiful few people however know how snow works what makes it possible for us to slip and slide over whether that s falling on sidewalks or skiing down a mountain what makes it cling to branches and street signs what qualities of snow lead to avalanches in a field guide to snow veteran snow scientist matthew sturm answers those questions and more drawing on decades of study he explains in clear and simple ways how and why snow works the way it does the perfect companion a ski trip or a hike in the snowy woods a field guide to snow will give you a new appreciation for the science behind snow s beauty

A Field Guide to Snow 2020-12-15 here is a complete guide for librarians seeking to launch or refine their systematic review services conducting searches for systematic reviews goes beyond expert searching and requires an understanding of the entire process of the systematic review just as expert searching is not fully mastered by the end of a library degree mastering the systematic review process takes a great deal of time and practice attending workshops and webinars can introduce the topic but application of the knowledge through practice is required running a systematic review service is complicated and requires constant updating and evaluation with new standards more efficient methods and improved reporting guidelines after a brief introduction to systematic reviews the book guides librarians in defining and marketing their services covering topics such as when it is appropriate to ask for co authorship and how to reach out to stakeholders next it addresses developing documentation and conducting the reference interview standards specific to systematic reviews including prisma institute of medicine and cochrane collaboration are discussed search strategy techniques including choosing databases harvesting search terms selecting filters and searching for grey literature are detailed data management and critical appraisal are covered in detail finally the best practices for reporting the findings of systematic reviews are highlighted experts with experience in both systematic reviews and librarianship including the editors of the book contributed to the chapters each step or piece of the review process planning the review identifying the studies evaluating studies collecting and combining data explaining the results and summarizing the review into a report are covered with emphasis on information roles the book is for any librarian interested in conducting reviews or assisting others with reviews it has several applications for training librarians new to systematic reviews for those developing a new systematic review service for those wanting to establish protocols for a current service and as a reference for those conducting reviews or running a service participating in systematic reviews is a new frontier of librarianship in which librarians can truly become research partners with our patrons instead of merely providing access to resources and services
