as a student working in the dusty archives of the sewanee review john jeremiah sullivan came across an article entitled lost utopia of the american frontier and was immediately hooked on the dramatic story of a lost book an alternative history of the south a white indian it was a story he'd chase for the next two decades in 1735 a charismatic german lawyer and accused atheist named christian gottlieb priber fled germany under threat of arrest bound for colonial south carolina in the cherokee village of grand tellico he created a utopian society that he named paradise for six years paradise was governed by a set of revolutionary ideas that included racial equality sexual freedom and a lack of private property ideas which he chronicled in a mysterious manuscript he called paradise priber's ideas were so subversive that he was hunted for half a decade and eventually captured by the british making headlines across the world and imprisoned until his death the only copy of paradise was apparently destroyed now in a rare combination of ground breaking research and stunning narrative skill award winning writer john jeremiah sullivan brings that lost history vividly to life

a re discovered masterpiece of reporting by a literary icon and a celebrated photographer in 1941 james agee and walker evans published let us now praise famous men a 400 page prose symphony about three tenant farming families in hale county alabama at the height of the great depression the book shattered journalistic and literary conventions critic lionel

trilling called it the most realistic and most important moral effort of our american generation the origins of agee and evans s famous collaboration date back to an assignment for fortune magazine which sent them to alabama in the summer of 1936 to report a story that was never published some have assumed that fortune s editors shelved the story because of the unconventional style that marked famous men and for years the original report was presumed lost but fifty years after agee s death a trove of his manuscripts turned out to include a typescript labeled cotton tenants once examined the pages made it clear that agee had in fact written a masterly 30 000 word report for fortune published here for the first time and accompanied by thirty of walker evans s historic photos cotton tenants is an eloquent report of three families struggling through desperate times indeed agee s dispatch remains relevant as one of the most honest explorations of poverty in america ever attempted and as a foundational document of long form reporting as the novelist adam haslett writes in an introduction it is a poet s brief for the prosecution of economic and social injustice
