answers questions about the bible

The Book of Questions 2013-09-10

the phenomenon returns originally published in 1987 the book of questions a new york times bestseller has been completely revised and updated to incorporate the myriad cultural shifts and hot button issues of the past twenty five years making it current and even more appealing this is a book for personal

growth a tool for deepening relationships a lively conversation starter for the family dinner table a fun way to pass the time in the car it poses over 300 questions that invite people to explore the most fascinating of subjects themselves and how they really feel about the world the revised edition includes more than 100 all new questions that delve into such topics as the disappearing border between man and machine how would you react if you learned that a sad and beautiful poem that touched you deeply had been written by a computer the challenges of being a parent would you completely rewrite your child's college application essays if it would help him get into a better school the never endingly interesting topic of sex would you be willing to give up sex for a year if you knew it would give you a much deeper sense of peace than you now have and of course the meaning of it all if you were handed an envelope with the date of your death inside and you knew you could do nothing to alter your fate would you look the book of questions may be the only publication that challenges and even changes the way you view the world without offering a single opinion of its own

Big Questions from Little People ... Answered by Some Very Big People 2012

children have a knack of asking great but challenging questions why is the sea salty how far away is space why can't I tickle myself what makes me me but how are we supposed to answer them imagine if we could turn to a leading expert and ask them to answer on our behalf this book gathers over 100 real questions from children and puts them to some of our best loved and most knowledgeable experts alain de botton explores how are dreams made kate humble explains why do lions roar and heston blumenthal answers why do we cook food their answers to the big questions some complex some searching some surreal and some just plain cute make this an essential handbook for anyone who wants to understand the complexities of life the universe and why cakes taste so nice includes answers from sir david attenborough dame kelly holmes bear grylls derren brown noam chomsky dr richard dawkins alain de botton annabel karmel jacqueline wilson jarvis cocker marcus du sautoy jessica ennis marcus chown tracey emin harry hill dr christian jessen and many more for each book sold a minimum of 67 of net royalty income is donated to the nspcc registered charity numbers 216401 sc037717

100 Questions Kids Ask 1989

answers such questions as who invented frozen food when was writing invented who invented chewing gum

Questions Kids Ask about Inventions 2000-02-08

201 questions to ask your kids do you have trouble talking to your kids does a successful conversation with your child consist of one word responses or abrupt physical acknowledgments does your son or daughter get upset at the most innocent questions join the club unfortunately communicating well with kids is something every parent desires but few achieve we love our children but talking to them in a meaningful manner isn t always easy the questions in this book are designed to help no matter what age or sex your children no matter how many children you have no matter how good or bad your current parent child relationship this simple game will get your family talking more and when you re talking really talking about emotions and fears and attitudes you ll be learning about each other as individuals and growing closer together as a group an introduction for kids wouldn t it be fun to find out more about what your father or mother was like when he or she was a kid or get to tell your parents which of their friends you think looks dorkiest wouldn t conversation be more interesting if you and your family traded unexpected questions and answers at dinner rather than just talked about what homework did or didn t get done there are a lot of great things to talk about that no one ever brings up because we usually think conversation is serious rather than a way of being playful of course conversation should be about serious things some of the time some of the questions in this book are about very serious topics but

other times questions should be asked just to create new ways to think about things look back on our lives or imagine what life would be like if we could design in any way we wanted in fact i wrote this book because i think talking can be terrific fun and even talking to your parents and brothers or sisters can be a kind of great game everyone can get to know each other and laugh a lot and be amazed from time to time no one wins or loses but there is an element of surprise in finding out personal information about parents and sharing some of your ideas daydreams and opinions with them my idea is to think of some of the world s most interesting questions that parents and kids could talk about and give everyone the chance to pick the ones they d like to hear about each person picks a question to ask and then answers a question when his or her turn comes around all you have to do is choose from the list under 201 questions to ask your parents and ask any question you want your parents can take as long or as short a time they want to answer any you can all discuss the topic if you like but then they go into their section of the book and ask you questions some of them might not be so interesting but others like asking you who is the meanest kid you know might be cool to think about and share with them they ll learn a lot about what you think are ways kids act nasty you can wiggle out of any two questions that don t interest you or are embarrassing but no more than that it s good if a question makes you squirm a little that means you either haven t thought about it before or you have but you haven t wanted to deal with it but why not try out and answer pick a set length of time to play for and my guess is you ll want to extend it these questions get addictive you can play them at the dinner table or after dinner or on a car trip or anytime you feel like hearing what your parents say about something so this is a book about how to have interesting and often funny conversations with your family it s a way to avoid dead boring silences and fill the time instead with questions and answers that everyone will enjoy thinking about i know that in my family it is too easy for us to get stuck talking about practical things like who has to be taken where the next day that isn t particularly fun it doesn t let me in on what my kids are thinking and it doesn t help my two teenagers learn things that might help them understand me a little better an ingenious book that speaks to both parents and their kids 201 questions to ask your kids 201 questions to ask your parents is two books in one open it from one side and it provides parents with 201 questions for their children intended to spark discussion help reveal who their children really are and help children think about themselves and the world in new and useful ways turn it over and there are 201 questions children can ask back to their parents devised as an interactive game this is a book that can get any family talking really talking about facts and fears and attitudes an ingenious book that speaks to both parents and their kids 201 questions to ask your kids 201 questions to ask your parents is two

books in one open it from one side and it provides parents with 201 questions for their children intended to spark discussion help reveal who their children really are and help children think about themselves and the world in new and useful ways turn it over and there are 201 questions children can ask back to their parents devised as an interactive game this is a book that can get any family talking really talking about facts and fears and attitudes
