Comus, a Mask [by John Milton], Presented at Ludlow-castle,

MDCXXXIV... 1747 john keegan s brilliant look at the meaning of leadership in the mask of command john keegan asks us to consider questions that are seldom asked what is the definition of leadership what makes a great military leader why is it that men indeed sometimes entire nations follow a single leader often to victory but with equal dedication also to defeat dozens of names come to mind napoleon lee charlemagne hannibal castro hussein from a wide array keegan chooses four commanders who profoundly influenced the course of history alexander the great the duke of wellington ulysses s grant and adolph hitler all powerful leaders each cast in a different mold each with diverse results the mask of command is a companion volume to john keegan s classic study of the individual soldier the face of battle together they form a masterpiece of military and human history

Mask 1985 this book is a wonderfully accessible introduction to a fresh and innovative acting technique for actors theatre makers and teachers to use in training and rehearsal a mask releases the actor to be playful and playfulness generates ideas finds meaning develops characterisation and is infinitely more fun than traditional training rather than a dry guide to making masked theatre it is about for instance playing lady macbeth in red nose or hamlet in the mask of the victim the ogre or the fool or even romeo and juliet in grotesque half masks all in the name of liberating your creativity and ultimately improving your performance extensively illustrated with a rich variety of masks this inventive and pragmatic book is full of invaluable games and exercises drawn from the author's own workshops his experience as co founder of both trestle and told by an idiot and his pioneering mask and clown work in many professional productions

Comus: a Mask 1799 the mask of command is about generals who they are what they do and how they affect the world we live in through portraits of four generals archetypal hero alexander the great anti hero wellington the unheroic ulysses's grant and the false heroic of hitler john keegan propounds the view of heroism in warfare as inextricable linked with the political imperative of the age and place he demonstrates how the role of the general alters with the ethos of the society that creates him and concludes that there is no place for heroism in a nuclear world the mask of command is a companion volume to john keegan's classic study of the individual soldier the face of battle together they form a masterpiece of military and human history

The Mask of Command 1988-10-04 an excerpt of a review by the bookman volume 51 the mask a book of remarkable quality by a new writer frank swinnerton in september pictures the impulse to snatch in some desperate fashion at the hurrying skirts of beautiful youth before it passes from us forever three sea tales whoever john cournos may be he has written a book of remarkable quality the mask is confessedly less a story than the portrait of a man but it is the portrait of a man in his natural setting a man of our time product and interpreter of a vastly larger human world than respectable fiction dreamed of dealing with a few years ago respectable is a word of ghastly omen in these days let me hasten to protest that i mean nothing by it but the kind of fiction that deserves respect as a product of the literary art it wasn't only victorianism in the now established sense of prudery and hypocrisy and general all round squeamishness in the face of god and man that made such a novel as this inconceivable a generation ago it was not so much

the narrowness of our hearts as the narrowness of our vision we could not see beyond our group or clan or class or race our imagination dwelt within a fenced range it is pleasant still to find ourselves now and then back in that safe place with the mrs humphry wards or the archibald marshalls or our own mild proponents of the average american citizen at work and play but we can t stay in it there is a bigger world outside and it calls us with a hundred voices the author names his prefatory chapter overture a promise and a warning it is a warning that we are not to have a conventional novel or even strictly speaking a novel at all but rather a series of pictures in which one john gombarov is more or less the central figure and in this series of pictures of life looked back upon gombarov saw each picture complete in itself yet all of them together formed the parts of a larger and grander composition which gave rise to a mood akin to the one in which he had many a time stood before a wall decoration by veronese or titian as eyeing a small detail of the panel he had said to himself here is a piece of colour so beautiful that i should be happy in possessing but a few square inches of it framed and hung on my wall in such a mood he liked to think of a man s life not as a play or novel but as a collection of short stories conceived by a single mind and dominated by a single personality which in some latent unobvious way is the sole hero of them all here then is john gombarov s world with john gombarov in the middle of it busily engaged as each of us is engaged in being himself the extraordinary thing is that this world of his the narrow world of a young slav immigrant in america is so patently part of our own world or rather like our own world a fragment of some greater human cosmos which as yet we in our provincialism but vaguely apprehend the book may among other things be good medicine for that complacency which ascribes unlimited capacity and power to the american melting pot one or two of our story tellers have recently ventured to show that we now and then actually gain something from the presence of the newcomer from europe with his thrift and his ambition as a spur to our own sluggishness if nothing else

Comus.
